me to the train ~~from~~ to Haifa, third stop

the station pointed me to the Port Hotel
where I stayed two nights. Used the
first day to get a Rav-Tav card as
most getting around can be accomplished
by bus. The second day to do laundry
and set out to Mount Tabor which
after learning the camp ground in
Shedat was closed decided to hike with
a full pack along a beautiful marked
trail to see both churches and take
in all the beautiful flowers + fauna + cattle along the way

raised a fuss as they leaved along the highway.
The visit to Tavor was inspired by the star
that took me to see the glorified bodies
where I saw the white lights/energy I can only
assume is the same Christ, Moses, Elias transfigured
into. The heavenly love I felt from it inscribed
my heart in a way that upon returning into
body I knew could be the only thing that would
bring world peace among all. That was my
heart's wish and I felt as though Our Most
High heard it for the blessings of enlightenment
and two physically provable miracles followed.

The area of the cave of Pan was breath
taking. There was a preacher speaking to
his group about Christ's question to Peter.
I really wish there would be signage

②
walking down the winding street this time
a couple drove me to the village at the base.
The intention was to reach Tagbha by
bus however Golan Heights was calling so
catching the last bus North was dropped
quite a distance from my intended hostel so
a cab took me to a camp ground with
the help of the bar driver calling ahead to
help arrange his service.

The camp ground close~~ness~~ left me with ^{no} budget
options for sleeping so I walked by the moonlight
to Banias Springs where Christ asked Peter
who he was... ^{Peter answered} "the son of God". This very
same blessing was given to me by heavenly
Father so this spot I awaited until sunrise
when the first employees ^{came} ~~opened~~ at 7:30.

I was on the wrong side ~~of the~~, so needed
to hike to the Banias water fall where the
Cave of Pan is, the spot where Christ asked Peter.
I attempted to leave and walk further
along the highway however jacked, badgers, wild dogs

prompted me to find a hostel. Returning to
Haifa would appear unlikely as buses shut
down early for shabbat. A blessing to be
in Israel where the commandment to keep
Shabbat is being followed by the transit authority.

A man working at Baia under heavy
customer service demand selling confections was
so especially kind to call local hostels, all fall,
and then to finally arrange for me to stay
3-4 nights at the local village with his
friend Saba Wargaby who just after
the park closed picked me up and pointed
out this water fall from which I've
hiked to begin this diary, and the
castle of Nimrod I was hike to next
as he reminded me Nimrod was an
excellent ruler. I am in a Druze
community, Druze men are all hiked
with a mystic belief we are all re-incarnated.
There was shared by Jacob who I met

so I thought, until I discovered the meaning of the Alphabet Alpha Tau.

Our Most High "of Abraham" I say of Abraham because the first night I began

Is any other? No. This to reinforce.

"at that time" I was speaking to the God of Abraham (my disconnection).

That "asking" was done by the concept of "BELIEF" ~~where~~ in God and where

I knew the arc was important but had no knowledge. When Othm gave me the paleo Hebrew letter Alpha to draw, as well as Tau, it was the latter name that transfixed me with love at first sight so my trip from Vancouver to Oregon to meet a new Jewish friend pointed out

His light to reach every soul to
make those amazing encounters of surprise +
delight come true in those relationships
meeting like that. I instantly realized
this is happening for billions of people all at
the same time, and yet through a "triple"

This was like a triple bounce shot in pool.

Life would go on for me unchanged.
I did not see a spiritual "action" to take.

divine alignments

this was shown by the very first
spiritual connection with God in a
dream where on 2-3 occasions
in the same night people from different
parties converged and ^{I met earlier} they themselves
to my astonishment knew each other.
One after the other we were all surprised
about new friends knowing other new friends
to converge on one common "stage".
It was then I was brought out of
first person body perspective to
see this "stage" of life.

God's flame was to my right He was ^{showing}
me three mirrors ~~reflected~~ projected

brought my sight to see from above looking down at my body. All three eyes were in use with top-down sight prevailing as I ran my elevation increased to above the trees to a bird's eye view.

Clearly none of this experience was scary except the momentary blackness to spiritual sight. For I intuitively began running almost as if I knew I'd gain altitude with my arms extended to mimic a bird or plane.

Ingo Swann was a member of the remote viewing team "Star Gate" at Stanford University along with Russel Targ who ^{two} friends know. A search on archive.org's document archive of ~~highly sensitive~~ Ingo's name will list many declassified FBI documents showing remote viewing is used successfully by government operations under numerous names.

The seed was planted for star travel.

Not wanting to copy or attempt Ingo's protocols the moment presented itself perhaps a decade

I know of our creator now, and would share the story with a few people ~~over~~ ^{experience}

the next few years. Reminded those I recall doing so ^{with} would share flying dreams, specifically, both had the ability to fly "through" mountains.

This had significance only realized "now" in the moment of this writing. For my next ^{spiritual} experience was star born.

Having read the ^{all book} ^{with} biography by Ingo Swann I know consciousness could leave the body. In 1989 he was ^a the man ~~capable~~ with exceptional ability to remove his consciousness from body and "remote view" and record what he saw elsewhere on earth and the moon.

I knew this was possible as well for ^{in the} the winter of 1989 waiting with two friends at a bus stop my consciousness suddenly switched to my third eye. The transition caused a moment of blackness, ~~loss of~~ ^{while moving from} two eye vision, to single eye vision ^{inside of} pinhead, which

brilliant to show we are all made of energy
that exudes LOVE.

^{unbuttonable}

No words need be spoken. The ^{there} LOVE permeated ^{my space}.
I arrived at a cosmic black tie gala ^{instantly}
where energetic avatars of men and women
danced in a splendid hall made of black and
white ^{sparkling} energy with tall columns. The beautiful
music died ^{as I arrived} right after I arrived for my
consciousness was observed by all as I
entered from ~~the~~ a top corner above ^{or}
~~inside with~~ the pillars. All energetic souls
turned to me and nodded.

Guided, my consciousness was brought to one
soul. The infinitesimally small size of my
meditative intention remained for the

later when while camping "one star" of billions
kept getting my attention throughout the night.

In the most playful way I said "okay you've
got my attention I'll come to you".

As I sat in a chair I began my first
meditation ~~and~~ out of body. In my mind
I pictured myself flying like mighty man or
superman with arms straight forward.
My next realization was I must be small and
as I did this the target goal became to have
no body. Done. Next, I realized the star
was "light years" away so I had to dissolve the
"idea" of light speed so I could arrive
there in an instant.

With no expectation, that meditation
succeeded in ~~what I had to be~~ gave an
experience I will never forget and has
inscribed a "LOVE" not felt without having
experienced "The glorified energetic bodies".
I was greeted by made of light so heavenly

heavenly

It is this ^a LOVE and LIGHT that
Our Most High of Abraham used to show
me that Christ Yeshua is his Son.

Earlier I spoke of the gift of the spontaneous
meditation from the mercy seat of the
arc of the covenant. Knowing now that
each soul is made of gold energy it is
fitting so is the arc and it's two angels of
physical gold if you wish ~~now~~ to call
anything "physical" when ~~it's~~ ^{one} science
human discovery shows the physical illusion
is made of energy.

There is a longing in me to return to
that ^{HEAVENLY} SOURCE that is so deep I remain
half in this world and half committed
to being made ONE once again in that ~~and~~
this extends to doing GODS WILL so
~~terribly~~ ^{lovingly} that I felt upon being brought
to the mercy seat to sacrifice my physical
body to re-integrate in an action of total
LOVE. Ron Wyatt's discovery of Christ's

golden ^{radiant} energy in the hex pattern shared by
water. I passed this to see the
dark vacuum of space within to only be
brought back to my original entrance
point from which, and with no warning
I was suddenly back in my body.

My first thought was if everyone could
experience that LOVE that was given there,
this could be the only that might just
bring world peace. The highest potential
of LOVE was shared and felt.

I remained stunned dwelling in the ^{LOVE} ~~body~~
that was given there and remained, and
remains to this day and ~~it~~ I feel is impossible
for it to disappear. Both my heart and
soul were gifted UNIVERSAL LOVE, our
highest calling and power by the heavenly
lights that radiate so bright the construct
of our reality seems dim in comparison.
A washed out copy compared to the energy in
heaven.

I sit now once more at Herman River springs in awe that I can be in the same spot as Christ + Peter during their special moment.

Today I'm gathering water ^{from this spring} to drink for the next few days.

I hiked the ILS trail from the Druze village and found a nice spot where I can camp. It allowed next to the river and waterfalls above along the way.

As I was deciding to come a song played that said "it would be raining and cold but come" to this effect. Think back to Omet's display of the three mirrors. The "alignments" or circumstances made just for you and I include everything you experience in life. Awaken to this and ~~not~~ God knows He has an attentive listener.

(16)

blood on the arc. made me realize the combined gift here is the Christ consciousness from spiritual brother and savior Christ. was shared with my yearning to return to heaven and do so by a grand radiance expression of LOVE energy with ^{and to} our Creator... and sacrifice.

Guided to the ARC many months before as an ~~event~~ (truth) to follow, the goal was now complete.

God shared the love and pain ^{I can only} ~~for~~ imagine was felt between He and His son Christ.

This is the miracle given to me to share.

For the ^{Love} connection is a FEELING and often why my connection with ~~the~~ is to radiate LOVE's "radiance" back to our Most High of Abraham and our Messiah to come in and through Christ!!

One of my first dreams to utilize
the energy I saw in heaven was one

Tel-Aviv is the place for God's protection
when we come face to face. It may
also be why the dream of war had us

Before I know the story of Jonah
and the fish. God was inspiring me
to seek to watch many dicks and
then gave the idea to walk ^{ride} a whale's
mouth as I was thinking to cross Egypt
to Sinai by boat if allowed. The
next day God guides me to the
scripture and story of Jonah's role
to warn Nineveh of God's impending
wrath and when he fails to and
escapes by sea from Tel-Aviv
realizes the storm is God's wrath
that he failed to do as he promised so
jumps overboard and is swallowed by a
fish where he prays for three days in its
belly before being released.

Before this trip I examined the carved

ago. On the backside it showed a
detail I never noticed of a face and

25

leading up to this trip I went to the movie theatre with no show to see in mind. The one starting as I arrived was Cap^{er} nauer (Chaos). This resonated as a message so I've stayed away from the area. I was told the sea of Galilee is so low that an island emerged in the middle. This reminds me of Pat's lake front home that has a small island as well.

I wondered, or made the reasoning that using the word God made sense (as it spells DOG) (and the sphinx ^{backwards} head with an Auk or dog head is proportional to the rest of it's body) if we were seeded from the constellation of Sirius (DOG STAR) well, the next day an answer came in the form of a miracle.

My father emailed the Danish was waging night raids and some mention of Bernif. Aunt Barb has been gathering old clippings from Grandma's attic. She placed my picture in the paper from Thanking at Freighthouse nursery or Kindergarten. On the right next to it is a column on Bernif and the un-asking for a ceasefire or sorts.

I feel like I'm about to leave this village before its destruction. The people I'm stay with don't have ~~at~~ a place to run to in mind if war approaches.

I began typing my plans into the phone for translation but God kept turning the phone off.

The term "alien" I find so derogatory
GOD answered we all come and return
to his ONE, therefore no one is
ALIEN... certainly not GOD.

If we're to refer to planetary visitors
using the same term "astronaut"
we apply to our own, then
certainly we can call them
off planet astronauts... or OPAs
which is a wonderful greeting
pulling from the Greek and has
the double meaning of grandparent
and a term of excitement as we
should have for those who have
travelled so far to see our planet
space ship planet earth.

Only a few days ago, or in the last
week did I hear someone exclaim
OPA! to me in Israel so it's a
wonderful expression even here.

I receive a report from Tom who
introduced me to Pat, that Pat
was electrocuted in his lake front
water (by a miswiring of a boat launch
- which I myself experienced at Talon
Lake as a child but not so severe)
as Pat was rendered unconscious,
unable to move from the electricity
seizing his muscles... yet the miracle
of this same electric current tempor-
orarily heavy in effect on his dog
Tom's best friend GOD (Dog) enough
so his dog rescued him to shore
yet when Pat came to, his dog
succumbed ~~to~~ and was floating
lifeless in the water.

This brings me back to the idea

Today I hike to Mas'ade again
for internet as funds and a
sleeping roll & bag were needed which
I located at a gas bar.

My dreams were active, the one I
recall the most is swimming along
a sandy bottom but could not
get up. The water was extremely
"heavy". It took an incredible push
to do so.

The dream of war in the distance
showed an extremely large explosion
over the hills, much like the one's
I viewed from my window ~~now~~.
It was a dream from God as the souls
leaving earth had the same golden
energy of the glorified bodies ^{shown in heaven} and then
attached to a grid that reminds me
of tetragrammaton's star of David
configuration. It was clear the explosion

Another reference to "PERFECT MAN" as I entered a hardware store to look for rope and the label name on a single piece of clothing that caught my attention - another reminder of the Perfect "10" Commandments.

Leaving that store for Mas'ade a hard to catch bus sat across the street going in the totally opposite direction. I paused, the driver woke from his ~~nap~~ and because it bore a number for Christ "69", as the cornerstone, I boarded it. Its destination... Mt. Hermon, actually the town of Majdal Shams. The driver dropped me at the town's entrance where upon seeing the snow capped mountain prompted ~~buying~~ buying a white fogie and nice black ~~glove~~ glove for the ascent. Needing a ~~restroom~~ stop I asked about Mt. Hermon access road and was told it was not ~~for~~

30

Mt. Hermon is also on Hwy 999. Banias on Hwy 99.

GOD emphasized the importance of 9 for months if not years. Every thing was a proportion of 9 - Divine 9 and knock off 2 just to back of perfection and keep man's attention with "7".

It turns out the "golden stars" are radiating $9/2$ "periodic". A divine lesson by none other than Lyra RR stars, playing the golden tune.

The square of 9 or 999 governing time.

A message, perhaps from scripture in my mind now is "Come as you are". I must make the journey, to try, ascension to Mt. Hermon before I leave, perhaps after the fast in the abandoned church across from Banias if I can squeeze through the port hole.

the first thing I did this morning was to
clean two north facing windows at Sal's.
Placing an ~~unseen~~ ^{unseen} screw from the window area on
a nearby TV I noticed God's alignment
that the make is AAA. Since the earliest
recorded Paleo Hebrew of YHWH ^{"name"} does not
have madoretic vowel points, I've put it in my
mind to associate His spoken name ^{giver} to ~~Moses~~ as
Ahayah Asher Ahaph or "AAA" ~~a word from God as I noticed this.~~
~~Who washes windows at a place they're not~~

this village rather a road quite far away.
The mountain above the town looked
very inviting. ~~The~~ sticker on the
washroom door was two white lightning bolts
on a black background so I knew I
was in the right spot. Mount Tabor
is only a guess and not Hermon
for the transfiguration of Christ (Mt. Hermon
is the other possibility). Days earlier a
logo of two mountains came to mind.
I ~~knew~~ I needed to hike this one as
well to pray and raise both hands
up to God ^{for embody} — the Paleo Hebrew VAV "Y"
with my ~~body~~ ^{body} arms to the heavens.
For Sharon's sake.

Another warm welcome by three Druze
men as I asked if the local mountain

and they said yes and offered water.
Salman was one of them. I explained
YHWH's name embodied by Moses ~~in~~

two miracle changes of water on 33rd, another number associated with Christ's ^(for His) age. Based on His reported birth year of 3BC on 9/4 - "Festival of Trumpets" which is fitting for revelations speaking of the trumpet before Christ's appearance.

When we add his birth year to his age we arrive at number 36 and part of the reason da Vinci's painting of Salvador Mundi (savior of the world) has Christ holding a globe of 360 degrees and education da Vinci knew YHWH's Hebrew letter "Heh" meaning window - the globe in Christ's hand acts as a window to His Body and does not invert His image as a globe should.

^{the original}
Only Hebrew will give you true understanding of Our Most High and Christ. We don't show up at the root for our favorite team wearing another color or colors... ^{as this is} totally illogical. The connection is lost. Why followers of Christ and YHWH don't think to learn Hebrew "the word" by YHWH's hand, and "spoken" by both shows the choice exists for all to find their way back. When you are born speaking a language, this

to be remembered for all generations, and.

GOD knows I value AAA as His name. "AAA Alarm" is also a message to me, the name of a company I grew up knowing ^{of the name} so of course my work is to remind all to live by the "Perfect" 10 Commandments before for the "Love of GOD" and certainly "Messiah Christ to come" as GOD has shared ^{the word} into the best of my "knowing" received by His Spirit "Ruach Alahym".

Days earlier while at Resim Waterfall in Agn Kynica and walking back from Marade I noticed the prettiest galvanized steel used on the guard rails. The segments were glistening and engrossed me ~~in~~ like seeing to. This it turns out was a gift of "Ruach Alahym" (RA). ~~So~~ When I reached the top of Madjidi Shams local mountain connecting to Mount Hozan (~~which~~ ^{which} summited to 1900 feet) I saw the same galvanized pattern in the rock on the top of ^{this first mountain} Guidance from RA, to know this mount ~~was for me~~ also came from special. Coming face to face with YHWH's spirit means (to me) watching for all alignments given.

While hiking the mountain at Madaj Shams

A small turtle came across my path while climbing loose rocks as I took a "straight up" throughline approach to the peak.

The turtle made me reflect immediately on slowing down. This ~~next~~ was wise as the next set of rocks began to come loose below my feet so in slowing down I found a switch back ^{road} trail that took me ~~to the~~ most of the way up. Following the ridgeline I crossed over to Mount Herman by walking a snow covered road. The weather was beautiful to start and then became partly cloudy so I was being cautious about my time needed to descend by sun position. My legs were tired by this point however I needed to summit Herman as well as this could also have been the mountain

(28) Which is interesting since ^{in doing so} you're calling God's attention to the single aspect of greeting another.

"Shalom" I fell in love with when I understood it's meaning of "IN" "PERFECT" COVENANT"

By greeting another this way you'd be acknowledging YHWH's commandments "PERFECT TEN"

such as "do not ~~take~~ false witness" thus the open salutation ^{SHALOM} says you're one who is LIVING AND WORKING YHWH'S GOOD ORDERLY DIRECTIONS. (God for short).

When I spoke earlier about standing on the Rock that is "KNOWN", people ask me what I mean by being a holy man, and Back at Bariaer, to the best of my knowing, YHWH's spirit has strongly guided me to know His son Christ and that He is the Messiah and a reminder for all to abide by the ten commandments. I feel there is a strong possibility I may be here to retrieve the ten commandments from the cave of the first temple arc of the covenant. This would certainly give all

Heaven by invitation of a star so it must

darted out from its position along a
snowbank to pass over the rocky ridge
to my right. The only other time
I've seen one was in front of the AAA

the ten commandments were calling. ~~got~~ The bus to ~~Wadaj Shams~~ had a jammed door preventing me from boarding. A strong gust of wind very pointedly took my water ~~the young man~~ who bottle in the opposite direction to Hwy 99 / Jerusalem but also Banias.

An offer for a ride to meet my friend of the other night came by two wonderful young men who said let's go to Banias. Another sign to be there and if I went it would mean fasting for the "3 days" grace but inside I felt "7" for Shabbat or "10" for the ten commandments it was more appropriate. They graciously went a town away from Banias to drop me at Masada to meet the friend of the previous ride who interested me in his tattoo capability so I could follow through with that in paleo-Hebrew in white ink or Henna on ~~my~~ ^{the} crown of my skull in the way of King Solomon's shield which

The other night walking back from Wadaj Shams I got stuck in a torrential rain storm after being dropped by the military. A car pulled over to give me a ride, but it is customary here for cars to pull over to take phone calls so even though the ~~prosser~~ window was partly down I walked past not wanting to be presumptuous. ~~It was~~ I felt it YHWH wanted it to happen the ~~car~~ ^{driver} would make another offer and they did. Another super friendly friend placed there by YHWH's inspiration to their heart. We exchanged email and met the next day. In that moment "YHWH" guided my mind to interpret "Tull" as "Tall" and I picture a mountain as in Jethro Mountain ("Tall").

I asked what is their favorite hit. self answering "Aqualung."

My discovery of Ron Wyatt happened that night. I looked over the arc of the covenant page for his discovery with sons. The Exodus crossing as well where I learned the real Mt Sinai in Saudi was where Jethro - Moses father-in-law headed on the west side. Jethro "Tall" was YHWH's guidance to know Ron's information was true. West Side Story was the only high school play I participated as Snowboy a "jet" which in Winnipeg, my city of birth, it opened by "True North" - the director of the compass to Medjed Shams (in my dream).

The LOVE and LIGHT moment is not normal. When you're blessed to know them, as YHWH had that star call me to them both and the glorified bodies I witnessed, there is a want to return for the LOVE is an intensity that is "The SOURCE" of LOVE felt at full potential and circumference your heart and soul in an instant.

I was giving sacrifice, to want to return in the meditation guided solely by YHWH. I had no idea what the arc served other than purpose.
